

PATHWAY TO SUCCESS

Serving students by Empowering Educators

STEP 1

CURRICULUM ALIGNMENT

We work with individual teachers to assure that their curriculum is **ALIGNED** to their state standards and all appropriate grade level state assessments. We also ensure that all curriculum is aligned with the new literacy and college and career readiness standards.

STEP 2

VERTICAL ALIGNMENT

Utilizing the recommended reading and vocabulary lists from the DOE as well as school and student data we partner with you to implement vertical curriculum alignment. We leverage best practices such as spiraling topics that are heavily assessed throughout multiple grades and subjects.

STEP 3

CREATING HIGHLY RIGOROUS QUARTERLY ASSESSMENTS

To ensure student success, we must increase the rigor and frequency of student assessments.

STEP 4

DEVELOPMENT OF EFFECTIVE PLCS & DATA

Digging into the data for meaningful information and trends utilizing our 40-minute protocol. Effective strategies and protocols to use at the educator and school levels.

STEP 5

INSTRUCTIONAL STRATEGIES

We work with teachers to develop proven and customized teaching methods. Not only to address diverse learning needs, also to empower educators to foster a more inclusive and impactful educational environment.
